Albemarle Corporation (NYSE: ALB) reported second quarter 2018 net sales of \$853.9 million, earnings of \$302.5 million and adjusted EBITDA of \$258.6 million.

"We saw strength in all three businesses in the second quarter, with each delivering double-digit adjusted EBITDA growth," said Luke Kissam, Albemarle's Chairman, President and CEO. "The company grew adjusted diluted EPS by 28% over 2017, excluding divested businesses. Our lithium capital projects continue to progress on plan. We are confident in a strong 2018 and are raising our guidance for the full year to \$5.30 to \$5.50 per diluted share."

## Outlook

Based on our strong performance in the first half of 2018, we are increasing our guidance as follows:

	2018 Outlook	vs Full Year 2017
Net sales	\$3.3 - \$3.5 billion	7% - 14%
Adjusted EBITDA	\$990 - \$1,020 million	12% - 15%
Adjusted EPS (per diluted share)	\$5.30 - \$5.50	15% - 20%

## Results

Second quarter 2018 earnings were \$302.5 million, or \$2.73 per diluted share, compared to \$103.3 million, or \$0.92 per diluted share in the second quarter 2017. The increase in 2018 was primarily driven by the \$1.60 per diluted share gain on sale of the polyolefin catalysts and components portion of the PCS business, as well as earnings growth in each of our reportable segments. Second quarter 2018 adjusted EBITDA increased by \$39.6 million, or 18.1%, compared to the prior year. Second quarter 2018 adjusted net income was \$150.0 million, or \$1.36 per diluted share, compared to \$126.5 million, or \$1.13 per diluted share, for second quarter 2017, an increase of 20.4%. See notes to the condensed consolidated financial information for further details. The Company reported net sales of \$853.9 million in second quarter 2018, up 15.8% from net sales of \$737.3 million in the second quarter of 2017, driven by the favorable impact of higher sales volumes, pricing and currency exchange impacts in each of our reportable segments, partially offset by the impact of the divestiture of the polyolefin catalysts and components portion of the Performance Catalyst Solutions ("PCS") business.

For the six months ended June 30, 2018, earnings were \$434.2 million, or \$3.90 per diluted share, compared to \$154.5 million, or \$1.37 per diluted share for the six months ended June 30, 2017. The increase in 2018 was primarily driven by the \$1.59 per diluted share gain on sale of the polyolefin catalysts and components portion of the PCS business, earnings growth in each of our reportable segments, and a loss on early extinguishment of debt of \$0.34 per diluted share recorded in 2017. For the six months ended June 30, 2018, adjusted EBITDA increased by \$77.0 million, or 17.9%, compared to the same period 2017. For the six months ended June 30, 2018, adjusted net income was \$295.2 million, or \$2.65 per diluted share, compared to \$245.5 million, or \$2.18 per diluted share, for the same period 2017, an increase of 21.6%. See notes to the condensed consolidated financial information for further details. The Company reported net sales for the six months ended June 30, 2018 of \$1.68 billion, up from net sales of \$1.46 billion for the six months ended June 30, 2017, driven by the favorable impact of higher sales volumes in our Lithium and Catalysts segments, as well as favorable price and currency exchange impacts in each of our reportable segments, partially offset by the impact of the divestiture of the polyolefin catalysts and components portion of the PCS business.

On April 3, 2018, we closed the sale of the polyolefin catalysts and components portion of the PCS business to W.R. Grace & Co. for net cash proceeds of approximately \$416.7 million and recorded an after-tax gain of \$176.7 million related to the sale of this business. The transaction includes Albemarle's Product Development Center located in Baton Rouge, Louisiana, and operations at the Yeosu, South Korea site. The transaction does not include the organometallics or curatives portion of the PCS business. The assets and liabilities of this business are included in Assets held for sale and Liabilities held for sale in the consolidated balance sheets as of December 31, 2017.

## Quarterly Segment Results

During 2018, the PCS product category merged with the Refining Solutions reportable segment to form a global business focused on catalysts. As a result, our three reportable segments include: (1) Lithium; (2) Bromine Specialties; and (3) Catalysts. For comparison purposes, prior year periods have been reclassified to conform to the current presentation.

Lithium reported net sales of \$317.6 million in the second quarter of 2018, an increase of 30.2% from second quarter 2017 net sales of \$243.8 million. The \$73.7 million increase in net sales as compared to prior year was primarily due to favorable pricing impacts, increased sales volumes and \$7.7 million of favorable currency exchange impacts. Adjusted EBITDA for Lithium was \$141.6 million, an increase of 22.9% from second quarter 2017 results of \$115.2 million. The \$26.4 million increase in adjusted EBITDA as compared to the prior year was primarily due to favorable pricing impacts, increased sales volumes and \$0.8 million of favorable currency exchange impacts, partially offset by higher royalty payments.

Bromine Specialties reported net sales of \$220.5 million in the second quarter of 2018, an increase of 8.1% from second quarter 2017 net sales of \$203.9 million. The \$16.6 million increase in net sales as compared to the prior year was primarily due to favorable pricing impacts, increased sales volumes and \$3.1 million of favorable currency exchange impacts. Adjusted EBITDA for Bromine Specialties was \$69.4 million, an increase of 11.7% from second quarter 2017 results of \$62.1 million. The \$7.3 million increase in adjusted EBITDA as compared to the prior year was primarily due to favorable pricing impacts and \$2.7 million of favorable currency exchange impacts, partially offset by higher raw material and production costs.

Catalysts reported net sales of \$285.0 million in the second quarter of 2018, an increase of 10.3% from net sales of \$258.3 million in the second quarter of 2017. The \$26.7 million increase in net sales as compared to the prior year was primarily due to increased sales volume, favorable pricing impacts and \$4.8 million of favorable currency exchange impacts, which more than offset the \$25.7 million impact of the divestiture of the polyolefin catalysts and components portion of the PCS business. Adjusted EBITDA for Catalysts was \$75.1 million in the second quarter of 2018, an increase of 11.4% from second quarter 2017 results of \$67.4 million. The \$7.7 million increase in adjusted EBITDA as compared to the prior year was primarily due to increased sales volumes, favorable pricing and \$0.3 million of favorable currency exchange impacts, partially offset by higher material costs and the impact of the divestiture of the polyolefin catalysts and components portion of the PCS business of \$9.8 million.

All Other net sales were \$30.7 million in both the second quarter of 2018 and 2017. All Other adjusted EBITDA was (\$0.1) million in the second quarter of 2018, a decrease of 104.1% from second quarter 2017 results of \$2.4 million. The \$2.5 million decrease in adjusted EBITDA as compared to the prior year was primarily due to the unfavorable pricing impacts and product mix in our fine chemistry services business.

## **Corporate Results**

Corporate adjusted EBITDA was a charge of \$27.4 million in the second quarter of 2018 compared to a charge of \$28.2 million in the second quarter of 2017. The improvement in Corporate adjusted EBITDA was primarily due to lower selling, general and administrative spend.

## **Income Taxes**

In December 2017, the Tax Cuts and Jobs Act ("TCJA") was enacted, requiring companies, among other things, to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously tax deferred and reducing the U.S. federal corporate income tax rate from 35% to 21%. The SEC staff issued SAB 118, which will allow us to record provisional amounts during a measurement period, which should not extend beyond one year from the enactment date. In the six months ended June 30, 2018, we recorded a discrete tax benefit of \$2.8 million to adjust amounts previously recorded for the one-time transition tax and a discrete tax benefit of \$3.7 million for other adjustments.

Our effective income tax rates for the second quarter of 2018 and 2017 of 21.5% and 19.0%, respectively, are influenced by non-recurring, other unusual and non-operating pension and OPEB items (see notes to the condensed consolidated financial information). The increase in the effective tax rate in the second quarter of 2018 compared to 2017 was impacted by a variety of factors, primarily stemming from a change in the geographic mix of earnings. Our adjusted effective income tax rates, which exclude non-recurring, other unusual and non-operating pension and OPEB items, were 24.4% and 19.1% for the second quarter of 2018 and 2017, respectively, and continue to be influenced by the level and geographic mix of income. Our effective income tax rates for the six months ended June 30, 2018 and 2017 were 19.7% and 20.0%, respectively, and our adjusted effective income tax rates for the six months ended June 30, 2018 and 2017 were 23.8% and 20.7%, respectively.

## **Cash Flow**

Our cash from operations was approximately \$223.9 million for the six months ended June 30, 2018, an increase of \$278.3 million versus the same period in 2017, primarily due to changes in working capital, including the payment of approximately \$255 million in taxes related to the sale of the Chemetall Surface Treatment business in 2017, as well as increased earnings in each of our reportable segments and increased dividends received from unconsolidated investments in 2018. Capital expenditures were \$280.9 million as compared to \$97.8 million in the first six months of 2017, with the increase driven largely by expansion investment in our Lithium business. We had \$908.1 million in cash and cash equivalents at June 30, 2018, as compared to \$1.14 billion at

December 31, 2017. During the first six months of 2018, cash on hand, cash provided by operations and net proceeds from divestitures funded \$213.3 million of commercial paper note repayments, net of borrowings, \$280.9 million of capital expenditures for plant, machinery and equipment, dividends to shareholders of \$72.5 million and a \$250.0 million accelerated share repurchase program, of which we received and retired approximately 2.4 million shares of our common stock during the second quarter. Any remaining shares to be delivered under this accelerated share repurchase program will be received and retired by the end of the third quarter of 2018.

### **Additional Information**

It should be noted that adjusted net income attributable to Albemarle Corporation, adjusted diluted earnings per share, non-operating pension and OPEB items per diluted share, non-recurring and other unusual items per diluted share, adjusted effective income tax rates, EBITDA, adjusted EBITDA, EBITDA margin and adjusted EBITDA margin are financial measures that are not required by, or presented in accordance with, accounting principles generally accepted in the United States, or GAAP. These non-GAAP measures should not be considered as alternatives to Net income attributable to Albemarle Corporation (“earnings”). These measures are presented here to provide additional useful measurements to review our operations, provide transparency to investors and enable period-to-period comparability of financial performance. The Company’s chief operating decision maker uses these measures to assess the ongoing performance of the Company and its segments, as well as for business and enterprise planning purposes.

A description of other non-GAAP financial measures that we use to evaluate our operations and financial performance, and reconciliation of these non-GAAP financial measures to the most directly comparable financial measures calculated and reported in accordance with GAAP can be found on the following pages of this press release, which is also posted in the Investors section of our website at [www.albemarle.com](http://www.albemarle.com). The Company does not provide a reconciliation of forward-looking non-GAAP financial measures to the most directly comparable financial measures calculated and reported in accordance with GAAP, as the Company is unable to estimate significant non-recurring or unusual items without unreasonable effort. The amounts and timing of these items are uncertain and could be material to the Company's results calculated in accordance with GAAP.

Non-operating pension and OPEB items, consisting of MTM actuarial gains/losses, settlements/curtailments, interest cost and expected return on assets, are not allocated to our operating segments and are included in the Corporate category. In addition, we believe that these components of pension cost are mainly driven by market performance, and we manage these separately from the operational performance of our businesses. In accordance with GAAP, these non-operating pension and OPEB items are included in Other expenses, net. Non-operating pension and OPEB items were as follows (in thousands):

(1) In connection with the acquisition of the lithium hydroxide and lithium carbonate conversion business of Jiangxi Jiangli New Materials Science and Technology Co. Ltd. (“Jiangli New Materials”), the Company valued inventory purchased from Jiangli New Materials at fair value, which resulted in a markup of the underlying net book value of the inventory totaling approximately \$23.1 million. The inventory markup was expensed over the estimated remaining selling period. For the three and six months ended June 30, 2017, \$11.9 million and \$22.5 million (\$8.9 million and \$17.5 million after income taxes, or \$0.08 and \$0.16 per share), respectively, was included in Cost of goods sold related to the utilization of the inventory markup.

- (2) The three and six months ended June 30, 2017 included restructuring costs at several locations, primarily at our Lithium sites in Germany. These restructuring costs are included in the consolidated statements of income as follows (in millions, except per share amounts):

	<b>Three Months Ended June 30, 2017</b>	<b>Six Months Ended June 30, 2017</b>

- (4) Included in Selling, general and administrative expenses for the three and six months ended June 30, 2018 is a \$15.0 million (\$11.5 million after income taxes, or \$0.11 per share) charitable contribution, using a portion of the proceeds received from the sale of the polyolefin catalysts and components portion of the PCS business, to the Albemarle Foundation, a non-profit organization that sponsors grants, health and social projects, educational initiatives, disaster relief, matching gift programs, scholarships and other charitable initiatives in locations where our employees live and operate. This contribution is in addition to the normal annual contribution made to the Albemarle Foundation by the Company, and is significant in size and nature in that it is intended to provide more long-term benefits in the communities where we live and operate.
- (5) Included in Gain on sale of business, for the three and six months ended June 30, 2018 is \$218.7 million (\$176.7 million after discrete income taxes, or \$1.60 per share and \$1.59 per share for the three and six months ended June 30, 2018, respectively, due to differences in the weighted average share count between periods) related to the sale of the polyolefin catalysts and components portion of the PCS business.
- (6) Included in Other expenses, net for the six months ended June 30, 2017 is \$7.4 million (\$6.0 million after income taxes, or \$0.05 per share) relating to the acquisition of the remaining 50% interest in the Sales de Magnesio Ltda. joint venture in Chile. The gain was calculated based on the difference between the purchase price and the book value of the investment.

- (7) Included in Other expenses, net, for the three and six months ended June 30, 2018 is a \$10.4 million (\$8.0 million after income taxes, or \$0.07 per share) legal accrual resulting from a proposed settlement in a legal matter related to guarantees from a previously disposed business. Also included in Other expenses, net, for the six months ended June 30, 2018 is a \$17.6 million (\$13.6 million after income taxes, or \$0.12 per share) legal accrual relating to a jury rendered verdict against Albemarle related to certain business concluded under a 2014 sales agreement for products that Albemarle no longer manufactures. Albemarle is currently evaluating its appeal options.
- (8) Included in Interest and financing expenses for the six months ended June 30, 2017 is a loss on early extinguishment of debt of \$52.8 million (\$38.1 million after income taxes, or \$0.34 per share) related to the tender premiums, fees, unamortized discounts and unamortized deferred financings costs from the redemption of the 3.00% Senior notes, €307.0 million of the 1.875% Senior notes and \$174.7 million of the 4.50% Senior notes.
- (9) Included in Selling, general and administrative expenses for the three and six months ended June 30, 2017 is \$2.0 million (\$1.4 million after income taxes, or \$0.01 per share) for increased capital reserve contributions to a multiemployer plan, which is subject to a financial improvement plan. In addition, capital reserve contributions for this multiemployer plan of \$2.9 million (\$2.2 million after income taxes, or \$0.02 per share), included in Other expenses, net, have been made to indemnify previously divested businesses.
- (10) Other adjustments for the three months ended June 30, 2018 included charges of \$1.2 million (\$1.0 million after income taxes, or \$0.01 per share) related to the revision of previously recorded expenses of disposed businesses recorded in Other expenses, net.

Other adjustments for the six months ended June 30, 2018 included amounts recorded in:

- Cost of goods sold - \$1.1 million for the write-off of fixed assets related to a major capacity expansion in our Jordanian joint venture.
- Selling, general and administrative expenses - \$1.4 million gain related to a refund from Chilean authorities due to an overpayment made in a prior year.
- Other expenses, net - \$15.6 million related to environmental charges related to a site formerly owned by Albemarle and \$1.0 million of charges related to the revision of previously recorded expenses of disposed businesses.

After income taxes, these charges totaled \$12.9 million, or \$0.12 per share.

Other adjustments for the three months ended June 30, 2017 included amounts recorded in:

- Selling, general and administrative expenses - \$1.0 million gain related to a reversal of an accrual recorded as part of purchase accounting from a previous acquisition.
- Other expenses, net - \$2.0 million of charges associated with the final settlements of previously disposed businesses and \$1.2 million of tax indemnification expenses primarily related to a competent authority agreement for a previously disposed business.

After income taxes, these charges totaled \$1.6 million, or \$0.02 per share.

Other adjustments for the six months ended June 30, 2017 included amounts recorded in:

- Selling, general and administrative expenses - \$1.0 million gain related to a reversal of an accrual recorded as part of purchase accounting from a previous acquisition.
- Other expenses, net - \$4.1 million of charges associated with the final settlements of previously disposed businesses, \$3.2 million of asset retirement obligation charges related to the revision of an estimate at a site formerly owned by Albemarle and \$1.2 million of tax indemnification expenses primarily related to a competent authority agreement for a previously disposed business.

After income taxes, these charges totaled \$5.6 million, or \$0.05 per share.

- (11) Included in Income tax expense for the three and six months ended June 30, 2018 are discrete net tax expenses (benefits), excluding the discrete tax expense on the gain of sale of business noted above, of \$0.3 million, or less than \$0.01 per share, and (\$11.8) million, or (\$0.11) per share, respectively. The net expense for the three months is primarily related to \$8.5 million for a valuation allowance recorded due to a foreign restructuring plan, partially offset by an \$8.0 million benefit for tax accounting method changes. The net benefit for the six months is primarily related to an \$8.0 million benefit for tax accounting method changes, a \$6.5 million benefit for adjustments related to the accounting for the TCJA and \$7.2 million

excess tax benefits realized from stock-based compensation arrangements, partially offset by \$8.5 million for a valuation allowance recorded due to a foreign restructuring plan.

Included in Income tax expense for the three and six months ended June 30, 2017 are discrete net tax expenses of \$2.2 million, or \$0.02 per share, and \$3.1 million, or \$0.03 per share, respectively. The net expense for the three months is primarily related to foreign rate changes of \$13.9 million, partially offset by a \$9.8 million benefit from the release of valuation allowances due to a foreign restructuring plan. The net expense for the six months is primarily related to foreign rate changes of \$13.1 million and a loss from prior year true up of \$5.1 million, partially offset by a \$9.8 million benefit from the release of valuation allowances due to a foreign restructuring plan and a \$4.7 million benefit from excess tax benefits realized from stock-based compensation arrangements.
